EXPERIENCE

BSNL | Industrial Training
Ghaziabad, UP
- Field of focus : cyber security and networking.
- Learned about high security protocols like SFTP and HTTPS.
- With the knowledge I gained during this training I am now in a position to implement these protocols to enhance network security.

SOFTCRAYONS TECH | Intern
Noida, UP

- Studied android application development.
- Worked on an image cropping app.
- This app was used by softcaryon to enable people to upload the right size of photographs size as per company specifications on their website

IIT, ROORKEE | Workshop
Roorkee, UK
- Field of focus: big data and hadoop
- Learned how to manage very large amounts of data.
- Worked on organising the data generated by a two labs of IIT.

PROJECTS

DECENTRALIZED NETWORK OF BLOCKCHAIN | Transaction Application
Meerut, UP
Worked with **Yash Ghatge** to create **A decentralized Blockchain based transaction application**, a Web Application which allows the user to perform asset transaction. It is based on blockchain every record of transaction is maintained on public ledger therefore providing more security and transparency.

BLOG APP | React based project
Meerut, UP
Developed **Blog Application**, A single paged web Application built on react frame work.
